

Dear Editor, Angela Wulff,

We are pleased to resubmit our manuscript AMBI-D-26-00315 "The biodiversity we ignore: a global meta-analysis on taxonomic bias" for reconsideration at *AMBIO*.

The reviewer market is indeed becoming increasingly challenging – we really appreciate your effort and perseverance in finding reviewers.

We have incorporated in the manuscript all reviewer comments (see “Response letters” and red highlights in the main text).

Thank you for your continued consideration of our work.

Sincerely,

Stefano Mammola
